The Veterans Health Administration is America’s largest integrated health care system with over 1,700 sites of care, serving 8.76 million Veterans each year.

Indiana has 3 VA Medical Centers, with multiple Community Based Outpatient Clinics (CBOC) serving Hoosier Veterans.

Veterans enrolled in VA health care programs have health coverage that meets the new health care law’s standard (ACA).

- Veterans do not have to take any additional steps to have health coverage.
For a former service member to receive certain VA benefits, the person must have active U.S. military service for a minimum period of time and meet nature of discharge requirements. Some members of the National Guard and reserve components have difficulty meeting the active duty and length of service requirements. However, a member of the National Guard or reserve components who is activated for federal military service and serves the full period of activation is considered a veteran for purposes of VA benefits.

- Prior to 9/8/80, no minimum length of service required
- Effective 9/8/80, 24 months of continuous active duty or the “full period” for which the service member was ordered to active duty
- Discharge type requires “under conditions other than dishonorable”
War Time Veteran

Periods of “wartime” designated by Congress:

- **Indian Wars**—January 1, 1817, through December 31, 1898
- **Spanish-American War**—April 21, 1898, through July 4, 1902
- **Mexican Border Period**—May 19, 1916, though April 5, 1917
- **World War I**—April 6, 1917, through November 11, 1918; extended to April 1, 1920
- **World War II**—December 7, 1941, through December 31, 1946; extended to July 25, 1947
- **Korean Conflict**—June 27, 1950, through January 31, 1955
- **Vietnam Era**—August 5, 1964, through May 7, 1975
- **Persian Gulf War**—August 2, 1990, through a date to be prescribed by Presidential proclamation or law

  – Pharmacy services
  – Complimentary Alternative Medicine (CAM) options

• Women’s Health Program

• Specialty Services

• Psychosocial Programs
Primary Care/Mental Health/Preventive Care Services

- PACT (Patient Aligned Care Team) model used in the delivery of care
  - Patient-driven, proactive, personalized, team-based care
  - Integrated care delivery allows a strong bio-psychosocial approach, allowing enhanced and holistic treatment of the Veteran with regard to his/her environment

- Integrated mental health services within primary care
  - Mental health and physical health are intricately linked, and should be treated concurrently

- Preventive care services include multiple programs managed through the VHA National Center for Health Promotion and Disease Prevention
  - MOVE program (national weight management program to help Veterans lose weight)
  - Tobacco cessation
  - Healthy living messages (stress, safety, limiting alcohol, screening tests and immunizations)
Women Veterans Health Care

• Since 2000, the number of women Veterans seeking VA health care has doubled

• VA strives to provide the best health care for women Veterans, including:
  – Primary care and preventive health, Mental Health, Gynecology and Maternity and Specialty care

• VA will provide comprehensive pre-natal, intra-partum and post-partum care to eligible women Veterans
VA Specialty Services

- Clinical professionals with expert knowledge to optimize treatment in unique or complicated courses of care. Specialty care providers focus on particular areas of care in which they have extensive training and education.
- Specialty services vary by VA health care treatment location (facility size and complexity)
- Larger VA facilities offer more specialty care
VA Psychosocial Support Programs

- Clinical case management services
- Homeless Veterans programming
- Vocational services
- Veterans Justice Outreach (VJO) program
- Caregiver support coordination program
- Suicide prevention program
- Military Sexual Trauma (MST) program
- Minority Veterans Program
Case Management Services

• Every VA has OEF/OIF/OND and PACT case managers (usually Social Workers or Nurses)
  – Able to assist Veterans with bio-psychosocial concerns including:
    • Healthcare and access to services
    • Employment
    • Relationship & Readjustment Concerns
    • Housing
    • VA Benefits
    • Financial Hardship
    • Legal Concerns
    • Resource referrals
Homeless Veterans Program
